Join our friend Smart  Snail to trace the Halloween Alphabets

Tracing activity with 26 dotted letters in red circles. The letters are arranged in a grid-like pattern. Halloween-themed illustrations are scattered around the letters, including a pumpkin, a witch, a candy, a ghost, a bat, a ghost house, and a scarecrow. A watermark 'Learningprodigy.com' is visible across the page.

Now, number the alphabets and write the correct letter to the corresponding number. What word you get?

ffalloween
ffalloween

A row of ten empty red circles for writing. Below each circle is a number: 8, 1, 12, 12, 15, 13, 5, 5, 14.

Happy Learning

Happy Halloween
