## Pieture Graphical Interpretation

Help our Sincere $\mathfrak{N}^{5}$ Snake to answer the following question.
The table shows the candies collected by the children during Halloween Trick or Treat. Look at the picture table and fill in the blanks.

| Children | Candies collected by them |
| :---: | :---: |
| Sam | $\theta^{+} \theta_{0}^{+} \theta^{8} \theta^{+} \theta^{2}$ |
| Jack | $\theta_{0}^{\infty} \theta^{\infty}$ |
| John | $\theta_{0}^{\infty}$ |
| Kane |  |
| Mark | $\theta^{+} \theta^{+} \theta^{+} \theta^{\circ}$ |

1. collected more candies.
2. Jack and Mark together collected candies.
3. Kane collected candies more than Sam.
4. John collected $\qquad$ candies less than Mark.
5. $\qquad$ collected least candies.
6. Altogether how many candies were collected by the children?
$\qquad$ ...
