Teacher's Day

Teacher's Day is celebrated every year on **September 5** in India. It is a special day to thank and appreciate our teachers for their love, guidance, and hard work.

Teacher's Day is celebrated on the birthday of **Dr. Sarvepalli Radhakrishnan**, a great teacher, philosopher, and the second President of India. He believed that teachers play an important role in shaping the future of children.

Teachers help us learn new things and encourage us to do our best. They teach us not only from books but also important values such as kindness, honesty, discipline, and respect.

On Teacher's Day, students show their gratitude by making cards, writing letters, giving flowers, and taking part in special activities at school.

Teachers are like guiding lights who help us grow and become better people. We are thankful for everything they do for us.

Happy Teacher's Day to all our wonderful teachers!
